

The logo for Infodart, featuring the word "Infodart" in a blue, sans-serif font. A stylized orange and blue swoosh is positioned above the letter "o".

Infodart

A photograph of a man in a dark suit, white shirt, and light blue tie, standing with his arms crossed. The background is a blurred office setting with windows.

**REDEFINING AND ASSURING
BUSINESS IN A SIGNIFICANT WAY**

A silhouette of a business meeting in a modern office with large windows overlooking a city skyline. A man stands in the center, pointing towards the window, while others are seated around a table, some looking at documents or laptops. The scene is dimly lit, with the city lights visible through the glass.

ABOUT US

Infodart Technologies Ltd, a global Information Technology and System Integration Company, incorporated in 2007. We are today the trusted partner of many organizations across the Asian continent and are diversifying across the Globe.

We provide innovative and customized business fit solutions to the organizations and help them do business better by leveraging our expertise, industry-wide experience and comprehensive portfolio of services. Our IT services spectrum include SAP, Oracle Retail, Custom Development and Cloud Services.

In this technology driven world and customer needs, it's imperative for organizations to transform and re-engineer themselves to adapt to the business dynamics. At Infodart, we provide end-to-end solutions to the organizations, right from consulting, project analysis, infrastructure, designing, testing to integration, implementation and business lifecycle support. With Infodart's global services, you can achieve a better return on your IT investment – and much sooner – helping you to realize your business objectives.

The SAP logo is displayed in white, bold, sans-serif font on a dark blue background. The background of the entire top section features a blurred image of a man in a suit pointing at a digital interface with various charts and data visualizations.

Today, SAP's diverse software suite is among the leading business solutions that span across an enterprise, integrating and aligning different applications to run your business efficiently & effectively. To achieve that you need an expert service provider who is exceptionally qualified to help you leverage the power of SAP solutions. Based on the "Think, Build and Operate model", Infodart's comprehensive portfolio of offerings spans the complete lifecycle of SAP enterprise solutions — enabling you to transform and enhance your business processes.

Today, SAP is undoubtedly the leader in ERP solution and enterprises need the combined power of simplification and innovation to drive competitive advantage of SAP for an improved performance, agility and reduction in the cost. SAP S/4HANA is designed to serve as a digital business foundation, helping enterprises predict consumer preferences and business outcomes, and drive digital transformation. SAP S/4HANA helps companies simplify, manage, and run the enterprise by connecting people, networks, and systems. The next-generation business suite SAP S/4HANA is built on the most advanced in-memory platform today – SAP HANA – with modern design principles and SAP Fiori user experience (UX). SAP S/4HANA is available with on-premise, cloud and hybrid deployments to give real choices to organizations.

The decision to embark on a SAP HANA or SAP S/4HANA journey is a very important decision and should feature in your immediate strategy. Organizations are today engaging with a trusted partner like Infodart to explore the benefits associated with this approach. Successful organizations traditionally define their “core business” or “core processes” where they can differentiate from competitors and realize a competitive advantage.

Our services address both Greenfield and Brownfield implementation to SAP S/4HANA, and provide an intuitive, customizable and user friendly application interface. With the latest Model Company Approach and tailored solutions for your enterprise's needs, you can ensure the success of SAP S/4HANA implementation, roll-out and support.
